Planning your project...

Sort your slides into chronological order and place them carefully in a box on edge. Put a sticky note on each row of slides indicating year, title, any special name. If you have more than one row, number the row accordingly, i.e.. row #1, row #2. Print out this form. Fill out the form and include it with your slides. Make sure to pack your slides carefully so they will not get moved out of order. Alternatively, if you have carousels with slides in them, you can send or drop off those also.

If you are dropping off your tapes at our office/home, you can do so at our address below. We have a brown drop off box that you can place your tapes inside of. This is located inside our home/office porch entrance on the right side. We will process the tapes and keep you updated via email on the progress of your project.

If not, place slides along with your order form in a strong box, packed to hold your slides secure. Your local Post Office has boxes that can be purchased to hold your slides for shipment. Make sure to send us an email (rdmdigital@gmail.com) stating that you are sending the slides. Send your box to the following address:
